## Event Brief

Multiscale Simulation Research Center (MSRC), with Departments of Mechanical, Civil, and Chemical Engineering at Manipal University Jaipur (MUJ) is organizing a three days International Conference on “Recent Advances in Modeling and Simulation Techniques in Engineering and Sciences [RAMSTES-2021]” to be held on 8-10, December 2021 at MUJ. The event will be a platform for understanding current state-of-the-art modeling and simulation techniques applied to modern engineering and science problems from renowned experts. The RAMSTES-2021 will also provide opportunities to the young and energetic scientists and engineers working on various facets of engineering and science problems to share their knowledge. The program will be very beneficial to the faculties, researchers, and scientists, and engineers working in the domain of computation, modeling, and simulation.

## About Manipal University Jaipur

The Manipal Education Group, with its heritage of excellence in higher education for over 60 years, launched Manipal University Jaipur (MUJ) in 2011. The permanent campus of the university, set up on 122 acres of land at Dehmi Kalan Village near Jaipur, is by far one of the best universities in the region. The Manipal University has more than 500 well-qualified faculties and about 9000 students. In line with Manipal University's legacy of providing quality education, the university uses the latest and innovative methods and technology to impart education.

## Multiscale Simulation Research Center

The Multiscale Simulation Research Center (MSRC) is the central high-end computational facility of MUJ established in 2019. It caters to the needs of the faculties, researchers, and students working in the domain of computational analysis of multiscale and multi-physics problems in engineering and science.
