

**Schedule of Key Activities of the ASME Materials Division**

**IMECE 2018 (Pittsburgh, PA)**

**Tuesday November 13<sup>th</sup>, 2018**

**FOR DISTRIBUTION**

<b>Time</b>	<b>Event</b>
8 -8:45 am	Materials Division Plenary #1 “Biological Materials and Mechanics: Challenges and Opportunities”, by Marc Meyers (UC San Diego, USA)
9-9:45 am	Materials Division Plenary #2 “The Future of Aerospace Materials: Challenges and Opportunities”, by Richard Vaia (Air Force Research Laboratory, USA)
11 am-12:30 pm	Materials Division General Meeting (open)
12:30-2:30 pm	Materials Division Executive Committee Meeting (closed)
3:45-4:45 pm	Sia Nemat-Nasser Award Lectures (two, 30 min./each)  “Interfacial Engineering Inspired by Nature”, by Tak Sing Wong (Penn State, USA)  “Bio-inspired soft network materials with unusual mechanical properties” by Yihui Zhang (Tsinghua University, China)
4:45-5:45 pm	Nadai Award Lecture: “Measurement of Power Law Creep Parameters by Nanoindentation”, by George Pharr (Texas A&M, USA)
6-8 pm	Materials Division Reception (light cold and hot appetizers, drink tickets will be distributed)
